REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
TO THE CHAIRMAN AND MEMBERS OF THE BOARD OF DIRECTORS OF ARAB POTASH COMPANY
(PUBLIC SHAREHOLDING COMPANY)

Introduction

We reviewed the accompanying interim condensed consolidated statement of financial position of Arab Potash Company - Public Shareholding Company (the "Company") and its subsidiaries (together the "Group") as at 30 June 2025, and the related interim condensed consolidated statement of income and the interim condensed consolidated statement of comprehensive income for the three and six-month periods then ended, and the interim condensed consolidated statements of changes in shareholders' equity and cash flows for the six-month period then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard (IAS) 34 (Interim Financial Reporting). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for the financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

(1) GENERAL INFORMATION

Arab Potash Company "APC", the "Company", is a public shareholding company that was founded and registered on 7 July 1956 in Amman – Jordan. During 1958, the Company was granted a concession from the Government of the Hashemite Kingdom of Jordan to exploit the minerals and salts of the Dead Sea brine. The concession expires after 100 years from the grant date, after which, the Company's factories and installations become the property of the Government of the Hashemite Kingdom of Jordan. Based on the agreement, the Company will not be responsible for any decommissioning costs. The concession agreement was amended during 2003 in accordance with the Temporary Law Number (55) of 2003, whereby amendments included the annual rent fees for lands within the concession area, the concession area borders, and the exclusive rights given to the Company. On 11 May 2010, the Government of Jordan and APC agreed to amend the lease fee of the concession land in Ghour Al Safi site to JD 1.5 million per annum; and the lease fee shall be increased annually in accordance with the Consumer Price Index to become JD 2 million as at 30 June 2025.

Under the terms of the concession, the Government of the Hashemite Kingdom of Jordan is entitled to a royalty of JD 8 for each ton of potassium chloride, ("Potash") exported by the Company. On 12 February 2008 the Council of Ministers resolved to increase the royalty fees to JD 15 for each ton mined, effective 17 March 2008. On 5 August 2008, the Council of Ministers resolved to increase the royalty fees to JD 125 for each ton mined, effective 16 September 2008 with maximum royalty payable limited to 25% of the Company's net profit after tax for the year excluding the Company's share in the results of its subsidiaries and associates and joint projects.

The Company calculated the potash mining fees for the six-month period ended on 30 June 2025 and 2024 at 25% of the net profits of the Arab Potash Company after tax and before the Company's share of the results of the subsidiaries and affiliates' businesses and joint projects, and it was presented in a separate line item in the interim condensed consolidated statement of income.

The authorized and paid in share capital is JD 83,317,500 distributed into 83,317,500 shares with a par value of JD 1 per share, that are all listed in Amman stock exchange market- Jordan.

The Company and its subsidiaries (the "Group") produce and market Potash, Salt, Potassium Nitrates, Di-Calcium Phosphate, mixed salts and mud in the local and international markets.

The registered address of the Company is P. O. Box 1470 Amman 11118, the Hashemite Kingdom of Jordan.

The interim condensed consolidated financial statements were authorized for issue by the audit committee on 29 July 2025.

(2) MATERIAL ACCOUNTING POLICY INFORMATION

2-1 Basis of Preparation

The interim condensed consolidated financial statements for the three and six-month periods ended 30 Jun 2025 have been prepared in accordance with International Accounting Standard (34) (Interim Financial Reporting).

The interim condensed consolidated financial statements are presented in Jordanian Dinars, which is the functional currency of the Group.

The interim condensed consolidated financial statements do not contain all information and disclosures required for full financial statements prepared in accordance with IFRS Accounting Standards and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2024. In addition, results for the six-month period ended 30 Jun 2025 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2025.

2-2 Basis of Consolidation

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, expenses and income of a subsidiary acquired or disposed of during the year are included in the consolidated statement of income from the date the Group gains control until the date the Group ceases to control the subsidiary.

Group Structure

The Company has the following subsidiaries and joint ventures:

Subsidiary name	Type	Nature of business	Paid in capital '000	Percentage of ownership %
Arab Fertilizers and Chemicals Industries (KEMAPCO)	Limited Liability	Fertilizer production	29,000	100
Numeira Mixed Salts and Mud Company	Limited Liability	Dead sea Mud products and packaging services	800	100
Dead Sea for Chemicals & Fertilizers	Limited Liability	Fertilizer production	250	100
APC Trading and Logistics Europe	Limited Liability	Trading and logistic services	113	100

Joint ventures	Type	Nature of business	Paid in capital '000	Percentage of ownership %
Jordan Bromine Company	Limited Liability (Special Free Zone)	Extraction of Bromine	30,000	50
Jordan Industrial Ports Company	Limited Liability	Industrial Port for handling services	140,000	50

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flow relating to transactions between members of the Group are eliminated in full on consolidation.

Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognized in a separate reserve within equity attributable to owners of Arab Potash Group.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value, with the change in carrying amount recognized in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to interim condensed consolidated statement of income.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognized in other comprehensive income are reclassified to interim condensed consolidated statement of income.

Shareholders with significant influence over the Group

The authorized and paid-in capital of the company is JD 83,317,500 divided into 83,317,500 shares with a par value of JD 1 per share.

The following table shows the shareholders with significant impact on the Group:

	Number of shares	Ownership %
Man Jia Industrial Development Limited	23,294,614	28
Governmental Investments Management Company	21,782,437	26
Arab Mining Company	16,633,897	20
Social Security Corporation	8,679,641	10

2-3 Changes in Accounting Policies

(a) New and amended standards and interpretations issued and adopted by the Group in the financial year beginning on 1 January 2025:

Key requirements	Effect date
Amendment to IAS 21 – Lack of Exchangeability: An entity is impacted by the amendments when it has a transaction or an operation in a foreign currency that is not exchangeable into another currency at a measurement date for a specified purpose. A currency is exchangeable when there is an ability to obtain the other currency (with a normal administrative delay), and the transaction would take place through a market or exchange mechanism that creates enforceable rights and obligations.	1 January 2025

The implementation of the above standard did not have a material impact on the interim condensed consolidated financial statements.

(b) New standards issued and not yet applicable or early adopted by the Company for periods starting on or after 1 January 2025:

Key requirements	Effect date
Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7: On 30 May 2024, the IASB issued targeted amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures to respond to recent questions arising in practice, and to include new requirements not only for financial institutions but also for corporate entities.	1 January 2026
IFRS 18, 'Presentation and Disclosure in Financial Statements': On 9 April 2024, the IASB issued a new standard – IFRS 18, 'Presentation and Disclosure in Financial Statements' – in response to investors' concerns about the comparability and transparency of entities' performance reporting. The new requirements introduced in IFRS 18 will help to achieve comparability of the financial performance of similar entities, especially related to how 'operating profit or loss' is defined. The new disclosures required for some management-defined performance measures will also enhance transparency. This new standard replaces the previous IAS 1 and is specific on matters related to presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss to meet the matters mentioned above.	1 January 2027 (early adoption is permitted)
IFRS 19, 'Subsidiaries without Public Accountability: Disclosures': This new standard works alongside other IFRS Accounting Standards. An eligible subsidiary applies the requirements in other IFRS Accounting Standards except for the disclosure requirements; and it applies instead the reduced disclosure requirements in IFRS 19. IFRS 19's reduced disclosure requirements balance the information needs of the users of eligible subsidiaries' financial statements with cost savings for preparers. IFRS 19 is a voluntary standard for eligible subsidiaries. A subsidiary is eligible if: • it does not have public accountability; and • it has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards	1 January 2027

The management is still in the process of evaluating the impact of these new amendments and standards on the Group's interim condensed consolidated financial statements, and it believes that there will be no significant impact upon implementation.

There are no other standards that are not yet effective and that would be expected to have a material impact on the Group in the current year starting 1 January 2025 or future reporting periods and on foreseeable future transactions.

(3) KEY ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from the estimates.

In preparing these interim condensed consolidated financial statements, significant judgments made by the management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that were applied to the Group's audited consolidated financial statements as at the year ended 31 December 2024.

(4) PROPERTY, PLANT AND EQUIPMENT

During the six-month period ended 30 June 2025, the Group acquired property, plant and equipment with a cost of JD 14,126 thousand (30 June 2024: JD 7,439 thousand).

The depreciation expense during the six-month period ended 30 June 2025 amounted to JD 35,479 thousand (30 June 2024: JD 33,376 thousand).

During the six-month period ended 30 June 2025, the Group initiated new/ additional projects in progress at a cost of JD 43,782 thousand (30 June 2024: JD 56,380 thousand).

Projects in progress are shown at cost and include the cost of construction, equipment, and direct expenses.

Projects in progress that are to be used by the Group are not depreciated until they are ready for intended use and they are transferred to property, plant and equipment.

During the six-month period ended 30 June 2025, the Group capitalized projects in progress amounting to JD 82,503 thousand.

Impairment on Project in Progress:

In 2017, the Company initiated the execution of the Dike 19 project in the northern part of the concession area. Based on the instructions of the project engineer, who designed and supervised the project's execution, the initial impoundment was started. However, the project engineer decided to halt the impoundment operations after detecting a significant loss of brine from the partially filled area.

The Company is currently exploring potential options for this project while noting that resolving the original design issues will require developing a new engineering design, which will incur additional costs. Consequently, an initial provisional impairment of JOD 63 million has been recognized to reflect the decline in the asset value. The Company has also initiated arbitration proceedings against the project engineer, in accordance with the dispute resolution mechanism stipulated in the contract between the Company and the project engineer.

The impairment was calculated in accordance with International Financial Reporting Standards.

(5) ACCESS RIGHTS

(a) Right of use of natural gas pipeline

On 19 February 2014, Arab Potash Company signed an agreement stating the construction of Gas pipelines, to provide the Company with natural gas as a source of energy. This agreement resulted in an obligation against capital projects of JD 15,583 thousand with an annual interest rate of 6 months SOFR plus 5% marginal fixed interest rate. This commitment was being settled over a period of 60 monthly payments starting 31 October 2017 and the last instalment payment was paid during 2022.

Amortization is calculated on a straight-line basis to allocate the cost over the entire term of the access right's contract of 15 years. The amortisation expense during the six-month period ended 30 June 2025 amounted to JD 519 thousand (30 June 2024: JD 519 thousand).

(14) INCOME TAX

The income tax provision for the period ended 30 June 2025 and 2024 has been calculated in accordance with the Income Tax Law No, (38) of the year 2018 and its subsequent amendments.

1- Arab Potash Company

The Income and Sales Tax Department has reviewed the Company's records for the years 2017 and 2018 and has issued the final tax clearance for those years. As for the years 2019, 2020, 2021, 2022, the tax return has been submitted and audited by the sales and Income Tax Department. The audit resulted in a JD 11.6 million national contribution difference for the audited period 2019-2022 due to a difference in the method of calculating the national contribution on income distributed from affiliates and subsidiaries. Management submitted an objection to this assessment within the legal period, and the objection was rejected by the Income and Tax Department and upheld the original assessment. The Company submitted an objection to the court and no provision has been made as in the opinion of the Company's management and its legal and tax advisors the Company has a strong position, and no additional tax provision needs to be booked at this stage.

For 2023 and 2024, the tax return has been submitted but not audited until the date of authorization of these interim condensed consolidated financial statements.

Due from Sales Tax Department

Other receivables include a balance of JD 40.1 million as of 30 June 2025 (31 December 2024: JD 36.9 million) representing the general sales tax paid by the Company over the past years. These amounts are refundable under the provisions of the General Sales Tax Law.

2- Numeira Mixed Salts and Mud Company

The Income and Sales Tax Department has reviewed the company's records up until the year 2019 and has issued the final tax clearance. As for the years 2020, 2021, 2022, 2023 and 2024, the tax return has been submitted to the Income and Sales Tax Department but not reviewed yet by the Income and Sales Tax Department until the date of authorization these interim condensed consolidated financial statements. Therefore, the company has recorded deferred tax assets based on acceptable tax loss.

3- Arab Fertilizers and Chemicals Industries (KEMAPCO)

Income tax provision has been calculated for the period ended 30 June 2025 in accordance with Income Tax Law No. (34) for the year 2014.

The Investment Environment Law No. 21 of 2022 became applicable on 14 January 2023 in accordance with paragraph (a) of Article (31); The profit realized from exporting goods outside the Hashemite Kingdom of Jordan to the registered company that carries out an economic activity in the free zone is no longer exempt from income tax other than what was stipulated in Article 14 of the Investment Law No. (30) of 2014. Under this law, the statutory tax rate on the company is 20%, in addition to a 1% National Contribution Tax on profit generated from sales and on interest income.

A new tax file was opened under the name Arab Fertilizers and Chemicals Industries Company / KEMAPCO with a new tax number in the Aqaba Special Economic Zone Authority. Accordingly, the income tax provision for the second half of the year ended 31 December 2024 was calculated in accordance with the Aqaba Special Economic Zone Law on 3 July 2024 and its amendments No. 32 of 2000. Under this law, the statutory tax rate on the company is 5%, in addition to a 1% National Contribution Tax.

The Company submitted its income tax returns within the legal deadline for the years 2019, 2020, 2021, and 2022, which were audited by the Income and Sales Tax Department. As a result, a decision was issued identifying tax differences due to subjecting income from export sales to the applicable tax rates, totaling JD 9,610,752 for the years 2019 to 2022. The company submitted an objection to the Income Tax Department for the years 2020, 2021, and 2022 within the legal period. As for the year 2019, the case is currently under court review, and no final decision has been issued as of the date of authorization of these interim condensed consolidated financial statements. Management and its tax advisor believe that income derived from export sales is not subject to income tax in accordance with paragraph (b) of Article (78) of the Income Tax Law No. (34) of 2014 and paragraph (a) of Article (14) of Investment Law No. (30) of 2014.

Based on the above, the company's management and its tax advisor believe that the income tax provision as of 30 June 2025 is sufficient to cover the tax liabilities imposed on the company as of 30 June 2025.

(15) CONTINGENCIES AND COMMITMENTS

The Group had the following contingencies and commitments:

	30 June 2025 JD "000" (Unaudited)	31 December 2024 JD "000" (Audited)
Letters of Guarantees	10,441	12,786
Letters of Credit	44,049	47,467
Commitments for the capital expenditures of projects under construction	250,555	228,169

Legal claims

There are a number of individual claims filed against the Company by a number of its employees, most of which are related to insurance indemnities resulting from work-related medical disabilities. In addition, there are a number of lawsuits raised by a number of suppliers and contractors against the Company in the ordinary course of business. The Company has recognized a total provision of JD2,738 thousand as at 30 June 2025 (31 December 2024: JD 2,849 thousand) which has been made on the basis of its assessment and as professional advice have indicated that it is likely that a loss will arise based on the expected outcomes of courts decisions during the years 2024 and 2025. These claims were fully provided for as shown in Note (12).

Based on the Group's assessment and both internal and external lawyers, management is of the opinion that no material losses will be incurred in respect of claims in excess of provisions that have been made in these interim condensed consolidated financial statements.

As at 30 June 2025, the Company was engaged in litigation proceedings with respect to an amount of JD 33,469 thousand in relation to a legal case and claim by one of the contractors. No provision has been made as the Company's management and its legal advisor believe that it is not likely that any significant loss will arise, and this is still under hearing with the Jordanian and International courts.
